

Our Goal

Our Goal is to provide standardised training that fosters safety, equality, and alignment with your company values, benefiting both employees and employers. Our flexible online courses help reduce costs while ensuring high-quality, reliable training, while our face-to-face sessions offer in-depth, hands-on learning experiences. Whether you're onboarding one new employee or hundreds, we offer scalable solutions for businesses of all sizes.

Edge Training Company is committed to continuous innovation, expanding our course offerings to meet the evolving needs of both the business sector and individual professional development.

What we offer

At Edge Training Company, we're modernising employee induction and training programs to meet the needs of today's fast-paced, evolving workplace. We understand that businesses need flexible, scalable, and cost-effective solutions to onboard and upskill employees — and that's exactly what we deliver.

Our **online and hybrid learning** options allow your team to access essential training at their convenience, whether digitally or through engaging in-person sessions. By combining the best of both worlds, we help you tailor training to your team's unique needs, ensuring flexibility without compromising personal engagement.

We also specialise in **microlearning** — delivering concise, targeted content that employees can easily digest and apply immediately. From WHS and diversity training to business etiquette and supervisory skills, our modules are designed to maximise retention and minimise overwhelm.
